SPECIFICATIONS

GENERAL:

Mains voltage

: 230V

Mains frequency

: 50Hz

Power consumption

: < 4W at Standby

< 450W Maximum

Clock accuracy

: < 3 seconds/day

Dimension (w x h x d)

: 435 x 140 x 430mm

TUNER:

FM

Tuning range

: 87.5-108MHz

: 75Ω coaxial

Grid

: 50kHz

IF frequency

: 10.7MHz ± 70kHz

Aerial input Sensitivity at 26dB S/N

: < 6µV

Selectivity at 600kHz bandwidth

: > 25dB

Image rejection

: > 75dB

Distortion at RF=1mV, dev. 75kHz : < 3%

Crosstalk at RF=1mV, dev. 75kHz : > 18dB

Stereo threshold

: < 28dB

MW

Tuning range

: 531-1602kHz

Grid

: 9kHz

IF frequency

: 450kHz ± 3kHz

Aerial input

: Frame aerial

Sensitivity at 26dB S/N

: < 3.2mV/M

Selectivity at 18kHz bandwidth IF rejection

: > 20dB

: > 38dB

Image rejection

: > 28dB

Distortion at RF=50mV, m=80%

: < 5%

AMPLIFIER:

Reference Output = 1W @ 8Ω

Output power:

Stereo L/R : 2 x 60W DIN 1)

Surround L/R : 2 x 60W DIN 1)

Center: 60W DIN 1)

Distortion at 1kHz, rated power - 6dB : < 0.7%

Signal to Noise Ratio

: > 65dB CCIR

Frequency response

: 20Hz - 20kHz / ± 1dB

Treble control

: 10kHz / ± 10dB

Bass control

: 100Hz / ± 10dB

VCR / TV / CDR input

: 460mV ± 70mV

Sub-woofer output (without load) : > 3V

Digital output (IEC958, 44.1kHz) : 500mV ± 20%

HANDLING CHIP COMPONENTS

(GB) WARNING

All ICs and many other semi-conductors are susceptible to electrostatic discharges (ESD). Careless handling during repair can reduce life drastically.

When repairing, make sure that you are connected with the same potential as the mass of the set via a wrist wrap with resistance. Keep components and tools also at this potential.

ESD

WAARSCHUWING

Alle IC's en vele andere halfgeleiders zijn gevoelig voor electrostatische ontladingen (ESD).

Onzorgvuldig behandelen tijdens reparatie kan de levensduur drastisch doen verminderen. Zorg ervoor dat u tijdens reparatie via een polsband met weerstand verbonden bent met hetzelfde potentiaal als de massa van het apparaat.

Houd componenten en hulpmiddelen ook op ditzelfde potentiaal.

ATTENTION

Tous les IC et beaucoup d'autres semi-conducteurs sont sensibles aux décharges statiques (ESD).

Leur longévité pourrait être considérablement écourtée par le fait qu'aucune précaution n'est prise à leur manipulation.

Lors de réparations, s'assurer de bien être relié au même potentiel que la masse de l'appareil et enfiler le bracelet serti d'une résistance de sécurité.

Veiller à ce que les composants ainsi que les outils que l'on utilise soient également à ce

(D

WARNUNG

Alle ICs und viele andere Halbleiter sind empfindlich gegenüber elektrostatischen Entladungen (ESD).

Unsorgfältige Behandlung im Reparaturfall kan die Lebensdauer drastisch reduzieren. Veranlassen Sie, dass Sie im Reparaturfall über ein Pulsarmband mit Widerstand verbunden sind mit dem gleichen Potential wie die Masse des Gerätes.

Bauteile und Hilfsmittel auch auf dieses gleiche Potential halten.

AVVERTIMENTO

Tutti IC e parecchi semi-conduttori sono sensibili alle scariche statiche (ESD). La loro longevità potrebbe essere fortemente ridatta in caso di non osservazione della più grande cauzione alla loro manipolazione. Durante le riparazioni occorre quindi essere collegato allo stesso potenziale che quello della massa dell'apparecchio tramite un braccialetto a resistenza.

Assicurarsi che i componenti e anche gli utensili con quali si lavora siano anche a questo potenziale.

Safety regulations require that the set be restored to its original condition and that parts which are identical with those specified,

(NL)

Veiligheidsbepalingen vereisen, dat het apparaat bij reparatie in zijn oorspronkelijke toestand wordt teruggebracht en dat onderdelen, identiek aan de gespecificeerde, worden toegepast.

Les normes de sécurité exigent que l'appareil soit remis à l'état d'origine et que soient utilisées les piéces de rechange identiques à celles spécifiées.

Bei jeder Reparatur sind die geltenden Sicherheitsvorschriften zu beachten. Der Original zustand des Geräts darf nicht verändert werden; für Reparaturen sind Original-Ersatzteile zu verwenden.

Le norme di sicurezza esigono che l'apparecchio venga rimesso nelle condizioni originali e che siano utilizzati i pezzi di ricambio identici a quelli specificati.

"After servicing and before returning set to customer perform a leakage current measurement test from all exposed metal parts to earth ground to assure no shock hazard exist. The leakage current must not exceed 0.5mA."

"Pour votre sécurité, ces documents doivent être utilisés par des spécialistes agréés, seuls habilités à réparer votre appareil en panne".

(GB) Warning!

Invisible laser radiation when open. Avoid direct exposure to beam.

(S) Varning!

Osynlig laserstrålning när apparaten är öppnad och spärren är urkopplad. Betrakta ej strålen.

Varoitus!

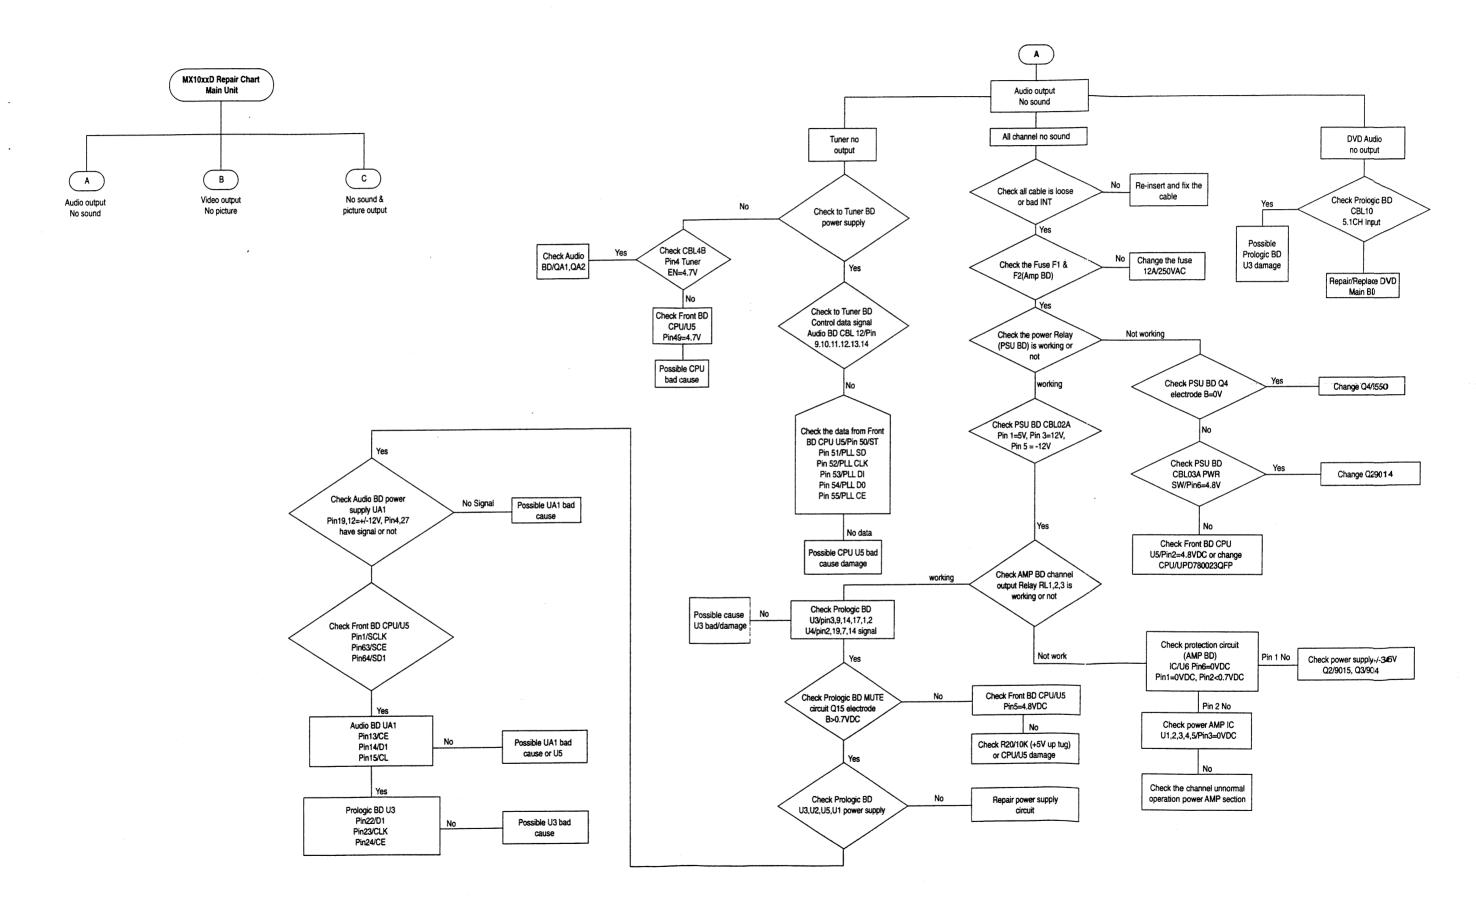

Avatussa laitteessa ja suojalukituksen ohitettaessa olet alttiina näkymättömälle laserisäteilylle. Älä katso säteeseen!

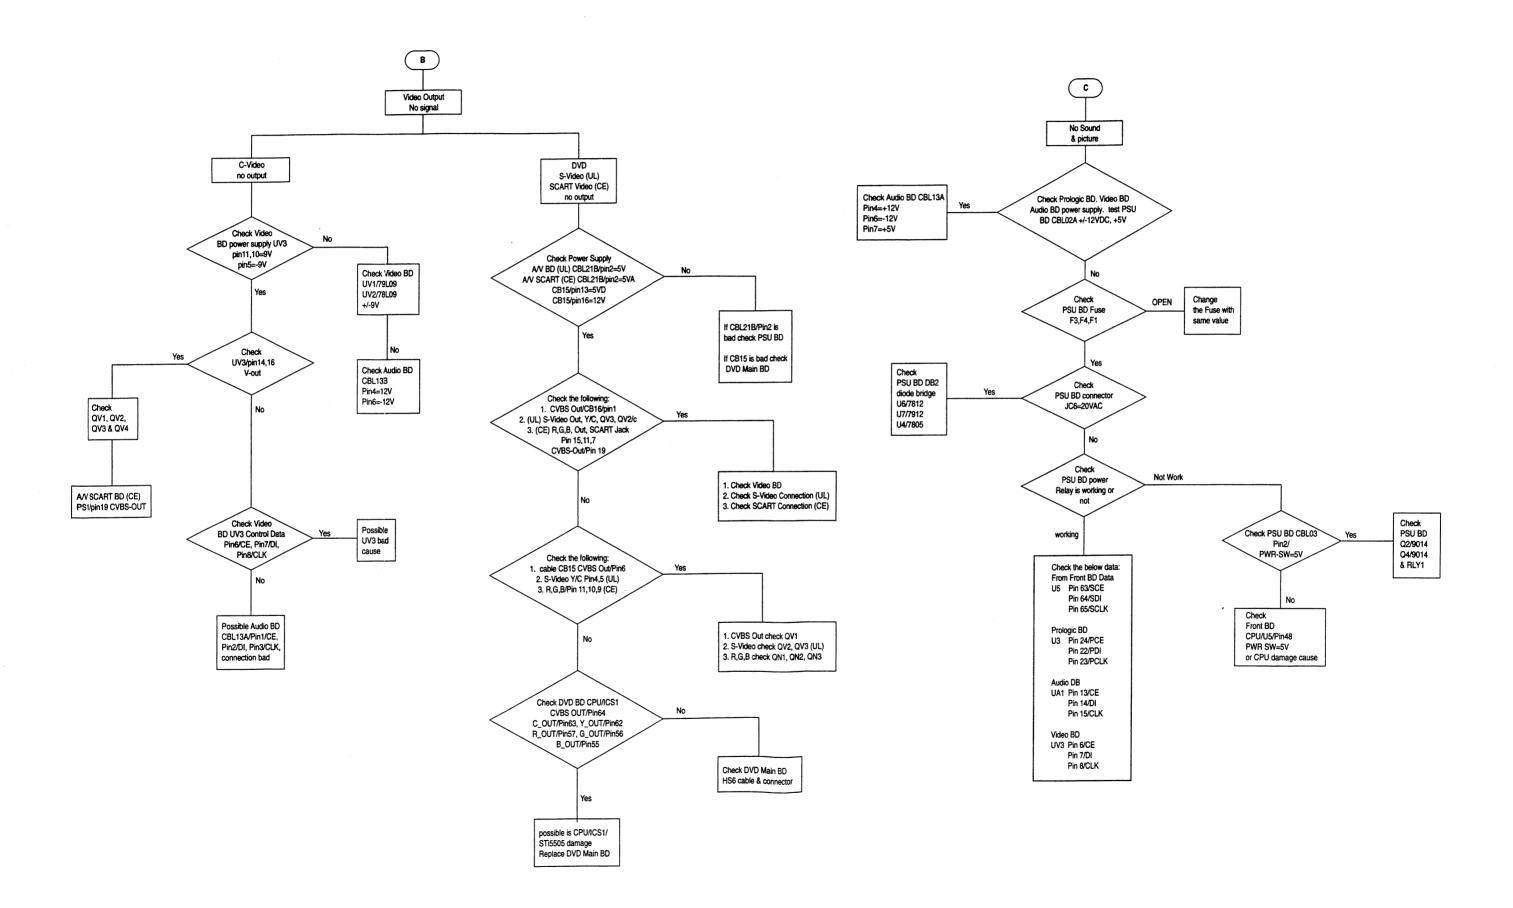

DK)Advarse!

Usynlig laserstråling ved åbning når sikkerhedsafbrydere er ude af funktion. Undgå udsaettelse for stråling.

DISMANTLING INSTRUCTIONS

Dismantling of the Front Panel Assembly

 Open the DVD Tray by using the Open/Close Button while the Set is ON and disconnect the mains supply after removing the Tray Cover.

Note: If this is not possible, the DVD Tray has to be open manually.

To manually open the DVD Tray, place the set on its right side. Insert a mini flat screw driver into the slot and slide it upwards as shown in figure 2 until the Tray moves out of the Front Panel.

- Return the set to its upright position and remove the Tray Cover as shown in Figure 1 and close the tray manually by pushing it back in.
- Loosen 9 screws and remove the Top Cover by lifting the rear portion upwards before sliding it out towards the rear.
- 5 screws on the rear
- 2 screws each on the left & right side
- Loosen 5 screws & lift up the top edge of Front Panel assembly to free some catches (see figure 3) before sliding it out towards the front.
- 3 screws on the bottom
- 1 screw each on the left & right side

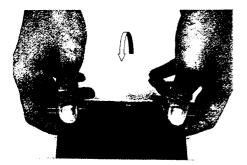

Figure 1

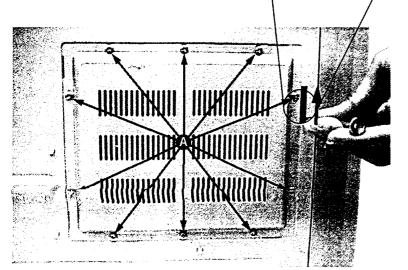

Figure 2

Dismantling of the DVD Module and/or Digital Board

 Loosen 10 screws A to remove the DVD Digital Board cover as shown in figure 2.

Note: Use step 3 to remove the Digital Board without dismantling the complete DVD Module.

2) Loosen 6 screws B (including 2 metal mounting brackets) and 2 catches C1 as shown in figure 4 and 5. Disconnect 4 cables (see figure 6) and remove the DVD Module by lifting its rear end upward and sliding it out of the Front Metal plate. Note: - Care should be taken not to entangle / damage the grounding springs along the DVD enclosure

- Do not loose the 2 metal mounting brackets.

 Loosen 4 screws D (see figure 6) and all connectors to remove the Digital Board.

Figure 3

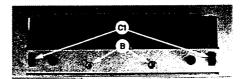

Figure 4

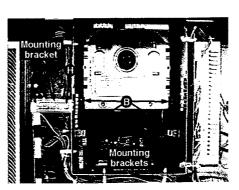

Figure 5

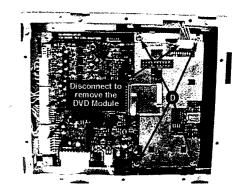

Figure 6

Dismantling the Tuner, Audio Switch, Video Switch, Pro-Logic and AV Board (Refer figure 8)

- Loosen 2 screws E on the Rear panel to remove the Tuner Board.
- Loosen 2 screws F on the Rear panel to remove the Audio Switch Board.
- Loosen 3 screws G on the Rear panel to remove the Video Switch Board.
- 4) Loosen 3 screws H to remove the Pro-Logic Board.
- 2 screws on the Rear panel
- 1 screw (including metal mounting bracket) on the inside of the set as shown in figure 5.
- Loosen 4 screws J on the Rear panel to remove the AV Output Board.

Figure 8

Dismantling the Regulator Board

 Release 4 catches of the pc board supporter with a long nose plier as shown in figure 7.

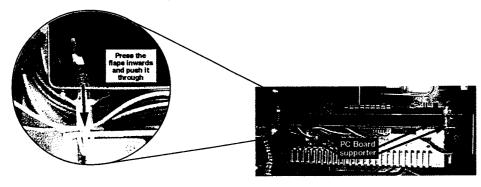

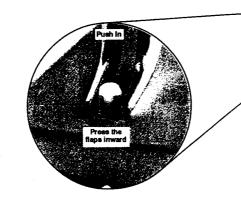

Figure 7

Dismantling the Power Amplifier Board

- With the set upside down, release 5 catches of the pc board supporter with a long-nose plier as shown in figure 9.
- With the set upright again, remove the Pro-Logic Board as describe above.
- Loosen 4 screws L mounting the heatsink to the bottom plate as shown in figure 9.
- 4) Loosen 7 screws K on the Rear Panel (see figure 8)
 - 4 screws for the Speaker sockets
- 3 screws to detach the Rear Panel from the bottom plate.

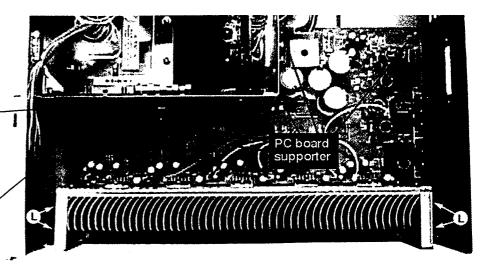

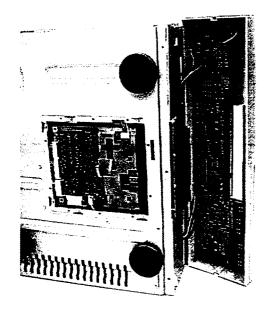

Figure 9

SERVICE POSITIONS & REPAIR HINTS

Service pos C

Service pos A

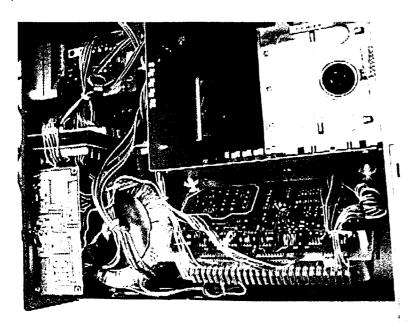

Note: In some service positions the components or copper patterns of one board may risk touching its neighbouring pc boards or metallic parts. To prevent such short-circuit use a piece of hard paper or other

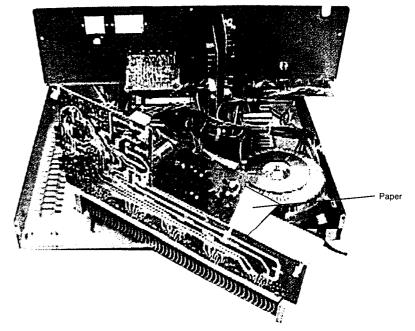

insulating material between them.

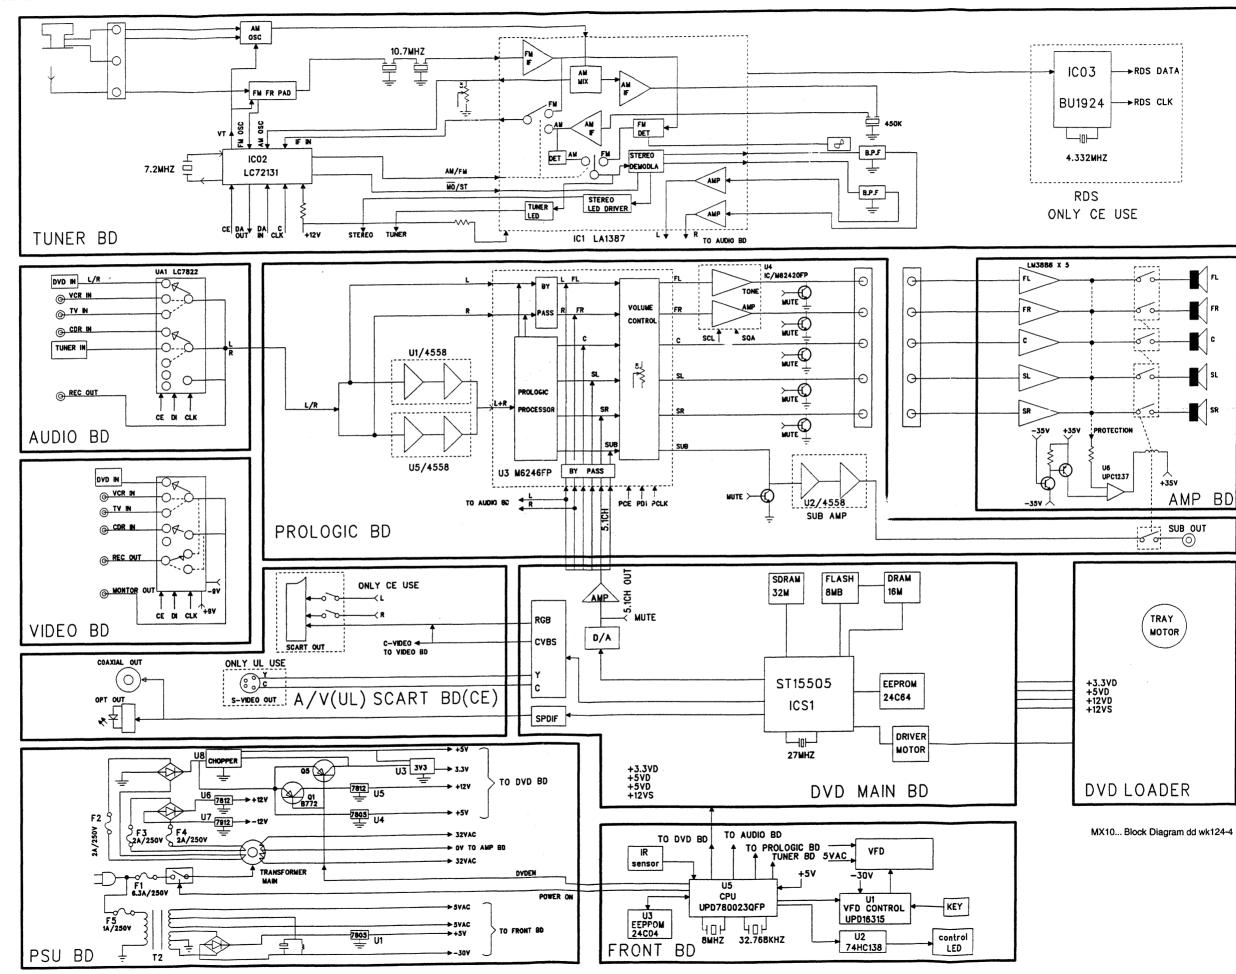

Service pos B

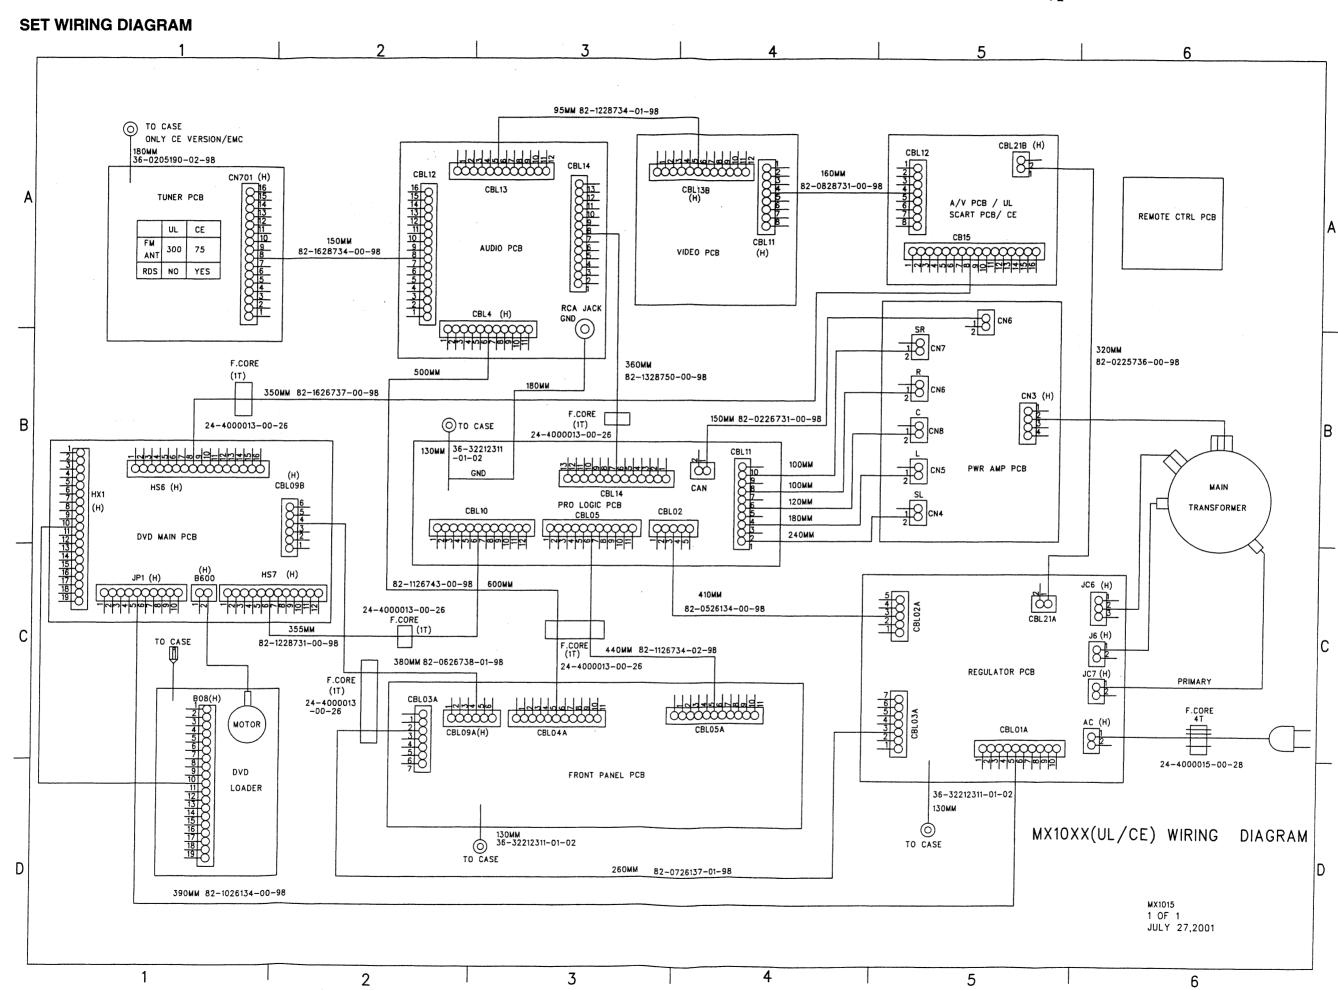

Service pos D

DVD MODULE

· (For Information Only)

It is not recommended for component repair on this Module but to replace the major assembly when it becomes defective.

Therefore no service parts list are published in this

The Circuit & Layout diagrams are published for reference only. The repair assistance on DVD section is given on Chapter 2.

SERVICING THE DVD MODULE

The only service parts available for replacement are: DVD Main Board R1.0 9965 000 10183 DVD Mechanical Loader TVM502T...... 9965 000 10185

Reprogramming of the DVD Main Board

Caution: This information is confidential and may not be distributed. Only a qualified service person should reprogram the DVD Main Board.

After replacement of the DVD Main Board, the customer settings and also the region code will be lost. Reprogramming of the DVD Main Board will put the player back in the state in which it has left the factory, ie. with the default settings and the allowed

Reprogramming is done by way of the Remote Control as given below:

1. With the unit on and no disc in the tray press DVD key

2. Press Menu key

3. Press numerical keys <1> <6> <7>

4. Press any one numerical keys between <1> and <6> as per Region codes given in the table below

5. Press Exit key.

Setup	Menu	is	displayed	

"Key 1 - 6 for Region: is displayed

Message displayed on TV screen

Selected region code is displayed

Type/version	Destination	Region Code*
MX1015D/37	USA	
MX1050D/22	Europe	2
MX1055D/37S	USA	1
MX1060D/22S	Europe	2

^{*} Note: The Region code may differs in some countries, in such case the Region code of the country should be used.

Upgrading of DVD software by way of an Upgrade Disc and Remote Control as given below:

Message displayed on TV screen

"Update Software 1/Yes, 2/No" is displayed

"Yes" is displayed briefly after which the message disappear

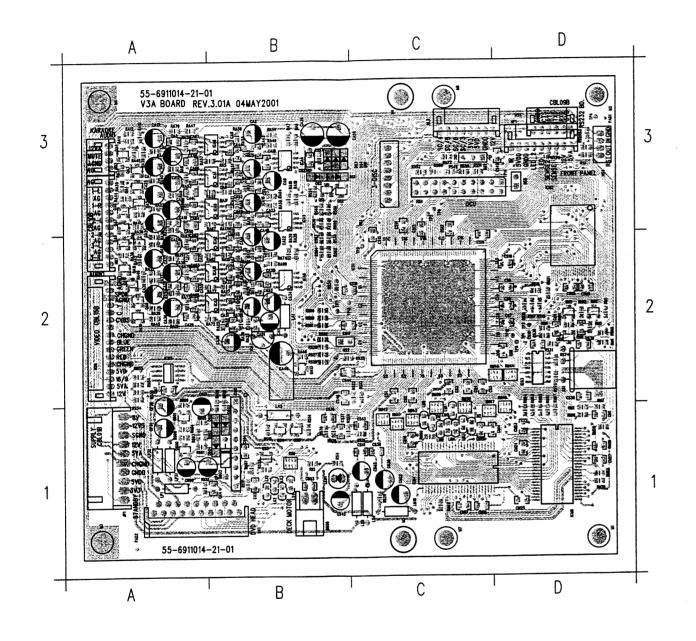

- 1. With the unit on and no disc in the tray press DVD key
- 2. Press Eject key to open the tray
- 3. Press Menu key
- 4. Press numerical keys <7> <6> <0>
- 5. Press numerical keys <1>
- 6. Insert upgrade disc and press Eject key to close tray
- 7. The set starts reading upgrade disc
- 8. Press Power key to bring the set into Standby mode.

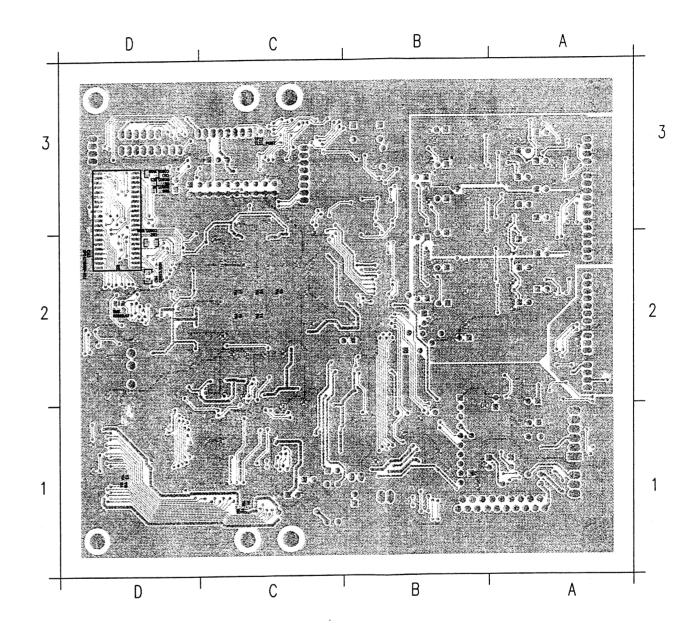

9. Remove the upgrade disc by power-up the set & eject to open tray.

"Color bars" is displayed when ready

Setup Menu is displayed

DVD MODULE

(For Information Only)

It is not recommended for component repair on this Module but to replace the major assembly when it becomes defective.

Therefore no service parts list are published in this Chapter.

The Circuit & Layout diagrams are published for reference only. The repair assistance on DVD section is given on Chapter 2.

SERVICING THE DVD MODULE

The only service parts available for replacement are:
DVD Main Board (STi5519)9965 000 12052
DVD Mechanical Loader TVM502T9965 000 10185

Reprogramming of the DVD Main Board

Caution: This information is confidential and may not be distributed. Only a qualified service person should reprogram the DVD Main Board.

After replacement of the DVD Main Board, the customer settings and also the region code will be lost. Reprogramming of the DVD Main Board will put the player back in the state in which it has left the factory, ie. with the default settings and the allowed region code

Reprogramming is done by way of the Remote Control as given below:

Message displayed on TV screen

1. With the unit on and no disc in the tray press DVD key

2. Press Menu key

3. Press numerical keys <1> <6> <7>

 Press any one numerical keys between <1> and <6> as per Region codes given in the table below

5. Press Exit key.

Setup M	enu is displayed
"Key 1 -	6 for Region: is displayed

Selected region code is displayed

Type/version	Destination	Region Code*
MX1015D/37	USA	1
MX1050D/22	Europe	2
MX1055D/37S	USA	1
MX1060D/22S	Europe	2

* Note: The Region code may differs in some countries, in such case the Region code of the country should be

Upgrading of DVD software by way of an Upgrade Disc and Remote Control as given below:

Message displayed on TV screen

1. With the unit on and no disc in the tray press DVD key

Press Eject key to open the tray
 Press Menu key

4. Press numerical keys <7> <6> <0>

Press numerical keys <1>

6. Insert upgrade disc and press Eject key to close tray

7. The set starts reading upgrade disc

8. Press Power key to bring the set into Standby mode.

. Fress Fower key to bring the Set into Standby mode.

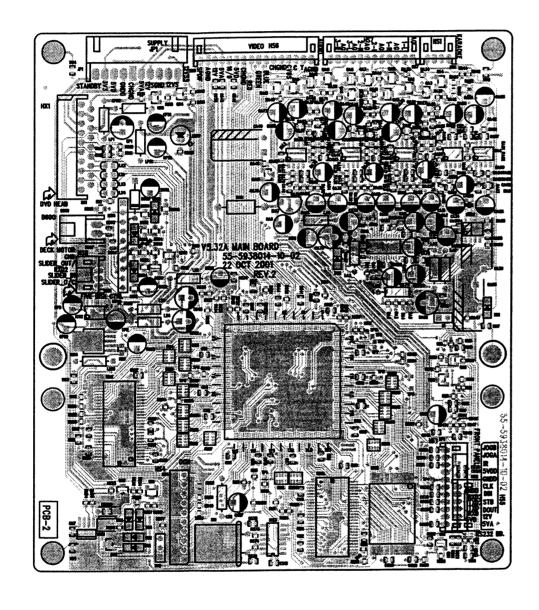

Setup Menu is displayed

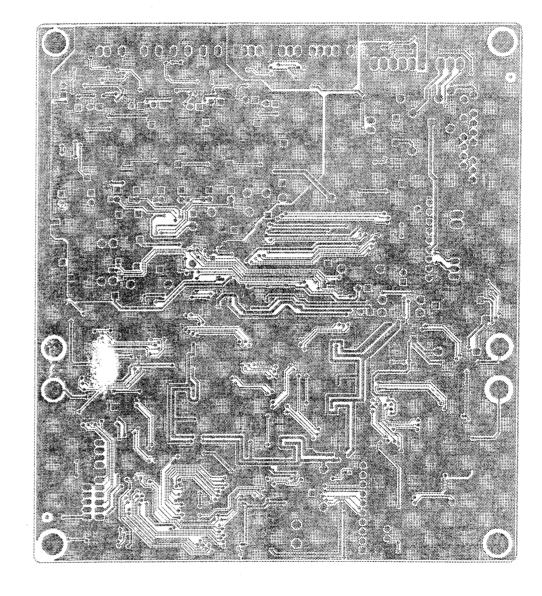

"Update Software 1/Yes, 2/No" is displayed

"Yes" is displayed briefly after which the message disappear

"Color bars" is displayed when ready

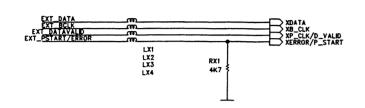

9. Remove the upgrade disc by power-up the set & eject to open tray.

CORRECTION TO SERVICE MANUAL

Below are corrections that have to be made on the parts list and circuit diagram:

During production (around wk150) a new DVD Main Board is introduced due to introduction of IC STi5519 which replaces IC STi5505. Due to this modification the following changes must take place simultaneously:

a) New Instruction For Use	9965	000	12051
b) Front Board's uProcessor U5	9965	000	12047
c) DVD Main Board (STi5519)	9965	000	12052

The new DVD Main Board can be recognized by the print mark "55-5938014-10-02" on the board.

Likewise if the DVD Main Board has to be replaced, please ensure the correct uProcessor U5 is in placed.

A new Chapter 9A for the DVD Module is attached for reference only. It is recommended to replace the defective board, therefore no parts list is included.
